SUPINE TO PRONE IN ONE MOTION
The Zing line of single and multi position standers were designed to fit the widest range of children and accommodate positioning challenges few other standers can. The Zing line features independent leg abduction up to 30 degrees on each model. The Zing can be configured with a simple padded strapping system to ease set up time in multi-user environments or when more individual positioning and support is required, additional components can be added to fit the user's needs.

**True Multi-Position Stander**
- The MPS and MPS TT allow supine, vertical and prone positioning without flipping foot plates or pads, moving the tray or transferring out and back in the stander.
- Smooth transition from a flat-to-load transfer position, supine, vertical and 20 degrees prone - all in one motion, thanks to the unique pivoting action of the Zing MPS and MPS TT.
- Provides therapeutic opportunities not possible with other multi-position standers - use prone for head control and when fatigue sets in, simply move to a slight supine position to rest but remain in the standing position.
- Frame will only go supine and upright with Prone Position Lockout engaged.

**True Hip Pivot Leg Abduction**
- Pivot points are in line with the hips, promoting proper alignment in the hips, knees and feet.
- Feet maintain the angle with the rest of the legs - no wedges needed and no additional adjustment to the knees or foot plates.
- Up to 30 degrees of abduction per leg - accomplished through a single knob.
- Promotes musculoskeletal development for children during critical growth years.
- Abduction can be adjusted and used throughout the entire positioning range.

**Plenty of Growth**
- **Size 1:** Fits children from infancy to 44”, and up to 70lbs.
- **Size 2:** Fits children from 40”-60”, and up to 154lbs.
- Can easily grow with the child and adapt to their changing needs.
- Many supports, pads and straps are available in multiple sizes.
- Comfortable transfer height of 32” makes transfers more manageable as children grow.
Advantage

**Remarkably Modular**
- Can be configured as a simple stander or fit a child with the most complex needs
- Designed to grow with the child – options can be added as needed
- Great for a multi-user facility or school

**Multi-Use Tray**
- The MPS, Supine, MPS TT and Supine TT feature a multi-use tray that is angle adjustable and swings away either direction
- Tray can remain attached during transfers
- More activities are possible by swinging tray away during standing therapy

**Unique Lift Mechanisms**
- Dual controls are available allowing angle adjustment by foot pedal or hand control
- Gas Spring Lockout prevents an inadvertent change of position, especially important when around other children
- The Pow’r Up Lift option on Size 2 brings the user to the standing position with the touch of a button

**Accommodating Contractures**
- No special modifications are needed to accommodate children with contractures
- Using the multi-adjustable foot plates, multi-adjustable knee pads and the independent calf pads, it is possible to adjust for contractures in one or both sides

**Easy Adjustment**
- Tool-free adjustment of all components
- Every adjustment can be made with a simple turn of a knob or ratchet handle
Health Benefits

- Improve/maintain range of motion
- Decrease joint/muscle contractures
- Management of atrophy in the trunk and leg muscles
- Improve strength to trunk and lower extremities
- Decrease muscle spasms
- Promote proper muscle skeleton development
- Improve/maintain bone integrity/skeletal development
- Lessen/manage the progression of scoliosis
- Manage pressure (ulcers) through changing positions
- Improve bowel function and regularity
- Aid in kidney and bladder functions
- Strengthen cardiovascular system and build endurance
- Improve circulation
- Reduce swelling in lower extremities
**Hygienic Covers**

- Available in 5 fun patterns for the pelvic, upper body, lateral, head and tray areas
- Prevents stander from getting soiled, especially during feeding
- Easily removed and washable

**Fitting the Zing**

**Centering the Hip (A):**
The user’s hip should be centered in line with the pivot point of the stander ensuring proper hip alignment when using abduction, adjust support components up or down based hip position.

**Foot Plate Height (B):**
Measure the distance from the hip of the user to the bottom of the foot.

**Knee Pad Height (C):**
Measure the distance from the hip of the user to center of the knee.
The MPS (multi-position stander) base includes:
- Four Swivel Locking Casters
- Foot Operated Gas Spring
- Mast Receiver with Prone Position Lockout
- Mast Receiver
- Foot Operated Gas Spring
- Four Swivel Locking Casters
- PA5608 Directional Locking Caster
- PA5614 Gas Spring Lift Lockout
- PA5520 Zing MPS Base
- PA5522 Zing Supine Base

Mast Receiver with Prone Position Lockout

- Mast is the base for positioning options including foot plates, knee supports, pelvic supports, upper body supports and head supports.
- Mast with Leg Abduction
- Mast is the base for support and positioning components and allows for 0-30° of independent leg abduction. Multi-adjustable knee pads or posterior knee pads and multi-adjustable foot plates required for leg abduction.
- Dual Control
- Allows both foot and hand control of the gas spring lift. Push handle PA5594 required.
- Gas Spring Lift Lockout
- Locks gas spring in any position from lying down to fully upright, supine and prone positions.
- Directional Locking Caster
- Great for transporting stander. Directionally locks one caster while leaving the other three free to swivel.
- Platform Foot Plate
- Adjustable in height. Foot holders and foot straps can be added for more precise positioning of the feet.
- Foot Plates are adjustable forward/aft +/- 1.5” (3.8cm), plantar/dorsal +/- 20°, toe-in/toe-out, swivel 30° left/right and in height. Foot holder sizes: PA5540-6”Lx3”W (15x8cm), PA5542-7.75”Lx3.25”W (20x8cm), PA5528-9.75”Lx4”W (25x10cm).

Multi-Adjustable Foot Plates

- PA5564-9.75”Lx4”W (25x10cm).
- PA5542-7.75”Lx3.25”W (20x8cm), PA5544-9.75”Lx4”W (25x10cm).

The Supine base includes:
- Four Swivel Locking Casters
- Foot Operated Gas Spring
- Mast Receiver
- Multi-Adjustable Foot Plates
- Foot plates are adjustable forward/aft +/- 1.5” (3.8cm), plantar/dorsal +/- 20°, toe-in/toe-out, swivel 30° left/right and in height. Foot holder sizes: PA5540-6”Lx3”W (15x8cm), PA5542-7.75”Lx3.25”W (20x8cm), PA5528-9.75”Lx4”W (25x10cm).

  - Individual Positioning Components
  - Padded Strapping

The Zing MPS TT is identical to the MPS from a positioning standpoint, but features larger, wider support pads and options for padded strapping, that can simplify transferring and securing children.

---

*Height ranges are approximate, seat to footplate measurements are more accurate measurements to determine the correct size frame.*
The Zing Supine TT features the larger pads and padded strapping options of the MPS TT and positioning from flat to load supine to vertical.

The Zing Prone is a single position stander but is one of the few to offer a flat-to-load transfer position at a comfortable height of 31”. Prone positioning from 0-90 degrees.
